Proposals.

SEALED PROPOSALS WILL 15 Re-Secured at the office of the City Clerk Scranton, Pa. until 7.30 e'clock p. m. Thura-day, March 15, 1864, to construct two lines of day, March 15, 1894, to construct two lines of sewers with the necessary manholes, hampholes, basins and fixtures, as follows: One of said lines is to be laid from the main sewer on Poplar street slong Spellman court, a distance of about 1,030 feet; the other to be laid from the main sewer on Poplar street along Rochecourt and Ash street, a distance of about 1,100 feet. Proposals shall be separate on each line of sewer. Bidders shall enclose with each proposal the sum of five pir cut, of the amount bid as a guarantee to excente a sentract within ten days if awarded the same. Proposals shall be to construct by the lineal foot complete, inclinding all besus, branches, man holes, lamp holes and fixtures, and also to furnish all manner of labor and supplies and shall be to finish the work in sixty days from date of commencement. The city reserves the right to reject any or all bids. By order of City Councils.

M. T. DAVELLE, Scranton, Pa., Feb. 27, 1894.

A Poet's Confession. Whene'er my Pegasus I goad,
My muse will gallop fast, and yet,
Though many a frightful debt I've owed,
I cannot write an ode to debt.

-New York Journal.

cept Situations Wanted, which are inserted Interesting Facts Relating to the Celebrated Viaduct Over Panther Creek.

VERY NOTABLE BIT OF MASONRY

Synopsis of an Article by M. S. Knight Resident Engineer, Published in Last Week's Engineering News. Anthracite Sales Agents Decide to Continue the Fifty Per Cent. Restriction Policy During March. Other Gossipy Gleanings Relating to Industrial Affairs.

To a late issue of the Engineering News, M. S. Knight, of Dunmore, resident engineer in charge of the celabrated Panther Creek viaduct, contributes an interesting technical des-cription of that massive bit of engineering, which forms by far the most interesting and important single fea-ture of the new "Panther Creek," or Wilkes-Barre & Eastern railroad. Accompanying the article is a picture of the completed structure which makes the description of its height, length and size seem doubly impressive. Some of the facts in Mr. Knight's article have been printed before, but many are new and all are interesting. Under the original survey a circuitous route had been laid out which would have escaped the Panther Creek ravine as the colored gentleman proposed to get the letter of the river, by going around it. Later, it was decided to bridge the chasm. This plan involved \$75,000 additional expense, and many engineer ing difficulties, but it avoid time by shortening the distance, and thereafter it was unhesitatingly decided upon. The vinduct is 1,650 feet long. It is

composed of place girders, 7 feet from center to center, resting on steel towers. There are 30 iron plate girder spans, each 30 feet long, one 60 feet. one 40 feet, and ten 65 feet long. The height from the creek channel to the base of rall is 161 feet and from the p of masoury to the base of rail is FOR RENT : ROOMS OVER STORE OF 154 feet, 65 inches There are 20 sup-porting towers, each resting upon a and Mulberry street, F. E. WOOD. Wood's College. porting towers, each resting upon a concrete pier, with 18-inch cap stone 4 feet square. The total amount of concrete used in the foundations is 2,353 cubic yards; and it was put i place between April 11 and June 24 of last year. The erection of the viaduct was begun, without the use of false works, Jane 28 and completed without loss of life or limb Aug. 3. The differ-ent pieces fitted so closely that the end of the last girders came to within onesixteenth of an inch of the engineer's marks on the bridge seat. Twenty-eight days of actual work by forty men sufficed for the erection of 1,881,597 pounds of iron, the viaduct's weight. The structure takes rank with the finest and most difficult in America.

FOR RENT-THREE ROOMS FRONT ON Enough four over N A. Hubert's make until a reduction in wages sufficient to meet the exigencies of a low tariff is meet the exigencies of a low tariff is conceded by the Window Workers

A telegram from Lestonia says the mines of the Salem Coal company are likely to suspend, work altogether, beginning on the first of Mwrch, Mana-ger Bailey, of the Sligo mills, says the firm has no intention of making a proposition to the men to make the mill co-operative. William P. De Armit president of the New York & Cleveland hal company; says if a compromise is affected in the tariff or coal placing the duty at 30 cents it will simply be a tax onon the consumer, as Canadian operators will sell it with the present duty added and will pocket the difference between the present duty of 70 cents and a duty of 30 cents, while the gov-ernment will just be out that much Eastern operators will be driven out o the market by a duty of 30 cents and will not help the consumer.

NEW YORK, Feb. 27.-The coal sale agents have decided to continue the 5 per cent, restriction in production, making the output for March about 2,250,000 tons. No change in prices was made and no action taken regarding spring prices. The next meeting of the agents will be held on March 29, when the spring prices will be determ ined and the production increased, weather permitting.

As a result of recent experiments with soft coal on the Reading railroad name. anthracite on about 200 locomotives. It is said that the soft coal costs \$1.50 a ton as against \$2.30 for the authracite, and that the change will effect a saving of \$100,000 a year.

MINOR INDUSTRIAL NOTES:

The sinking of a number of sha(ts in the valley of San Marcial, Soners, Mexico, has disclosed the fact that the district is rich in anzaracite coal, which has been practically unknown in Mexico up to this time. A dispatch from Guaymas states that mining operations are to be begun at

Mrs. Mary Barrett has leased to Daniel F. Hughes and W. W. Watkins a tract of land near Carbondule known as Sandy's field, containing about seven acres of coal. The firm announces their intention to erect a breaker with a capacity of 200 tons A gang of thirty men are at work near

Mauen Chunk putting in the automatic block system on the Lenigh Valley rail Last week the Reading company bauled 120,000 tops of coal down the main line to

Philadelphia. Pennsylvania railroad officials say the report that business on their eastern lines has reached a low ebb is exaggerated; that while business is very dull, there were weeks in November and December of last year when the volume of traffic was

The monthly statement of the Pennsylvania railroad voluntary relief department for January, 1894, shows an aggregate dis-bursement of \$48,918 55, of which \$18,500 was paid out in death b-nelits, \$0,720.35 ac-cident benefits and \$30,608 in sick benefits. The total amount paid out since Feb. 15, 1836, in \$3,354,886.78,

FINANCIAL AND COMMERCIAL

Stocks and Bonds. New York, Feb. 27.—Speculative interest shifted to a greater extent to the railroad list today, although the industrials were not neglected by any means, St. Paul was advanced from 5734 to 59% and Paul was advanced from 57% to 59% and the stock figured for 42,000 shares out of a grand total of 147,521 shares. The other grangers outside of St. Paul advanced % to 1 per cont., while the trunk lines moved up M to 1% it will be seen from this that if the Grosscup decision is of such starting importance it certainly has not made its effect felt. The decision simply affirmed the well known principle of law that a witness has the right to refuse to There is nothing like Dr. Thomas' ling importance it certainly has not made Eclectric Oil to quickly cure a sold or relieve hoarseness. Written by Mrs. M. J. firmed the well known principle of law Fellows, Burr Oak, St. Joseph Co., Mich.** that a witness has the right to refuse to

answer may incriminating questions. The anthracite coalers were duil. The indus-truls were strong for Sugar, General Electric and Lead and irregular for Gas and Whiskey. The market closed firm at 1/2 a 1/2 per cent, higher.
